DC System	24V
Batteries	4x MLV Lithium Ion 24V 5500 200A

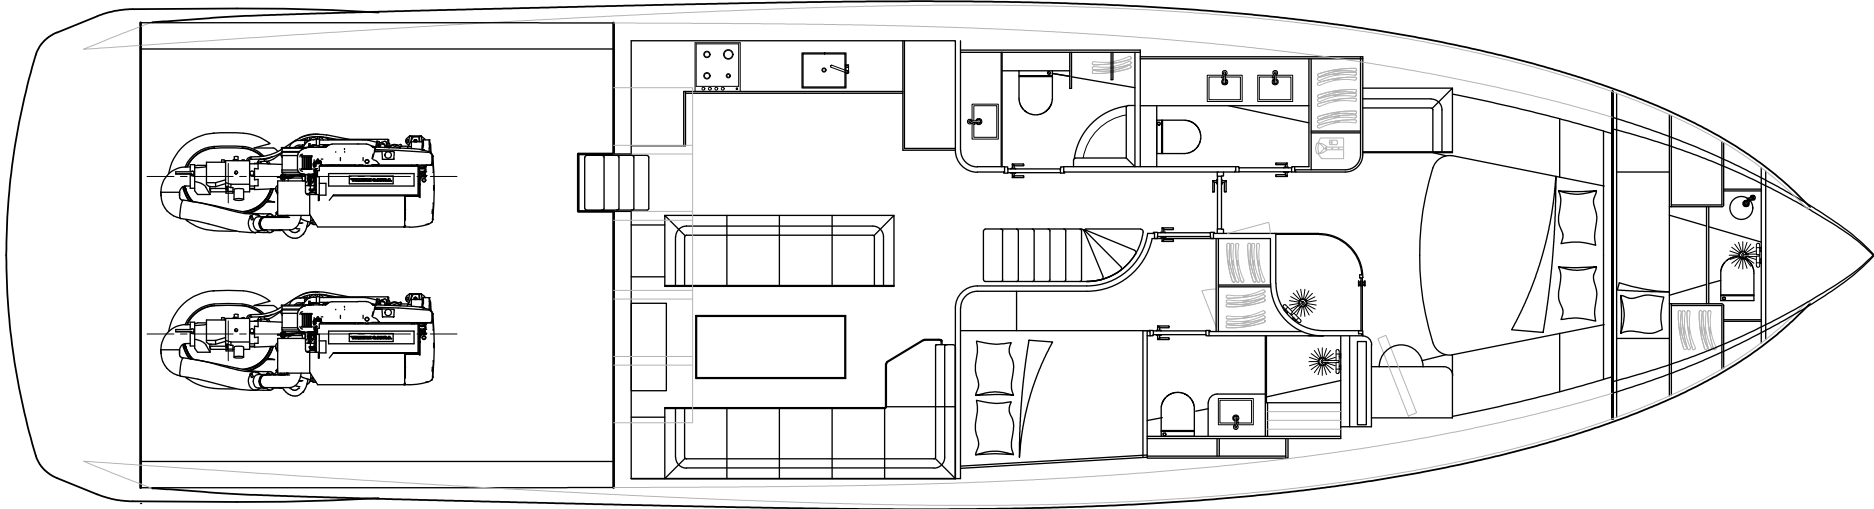

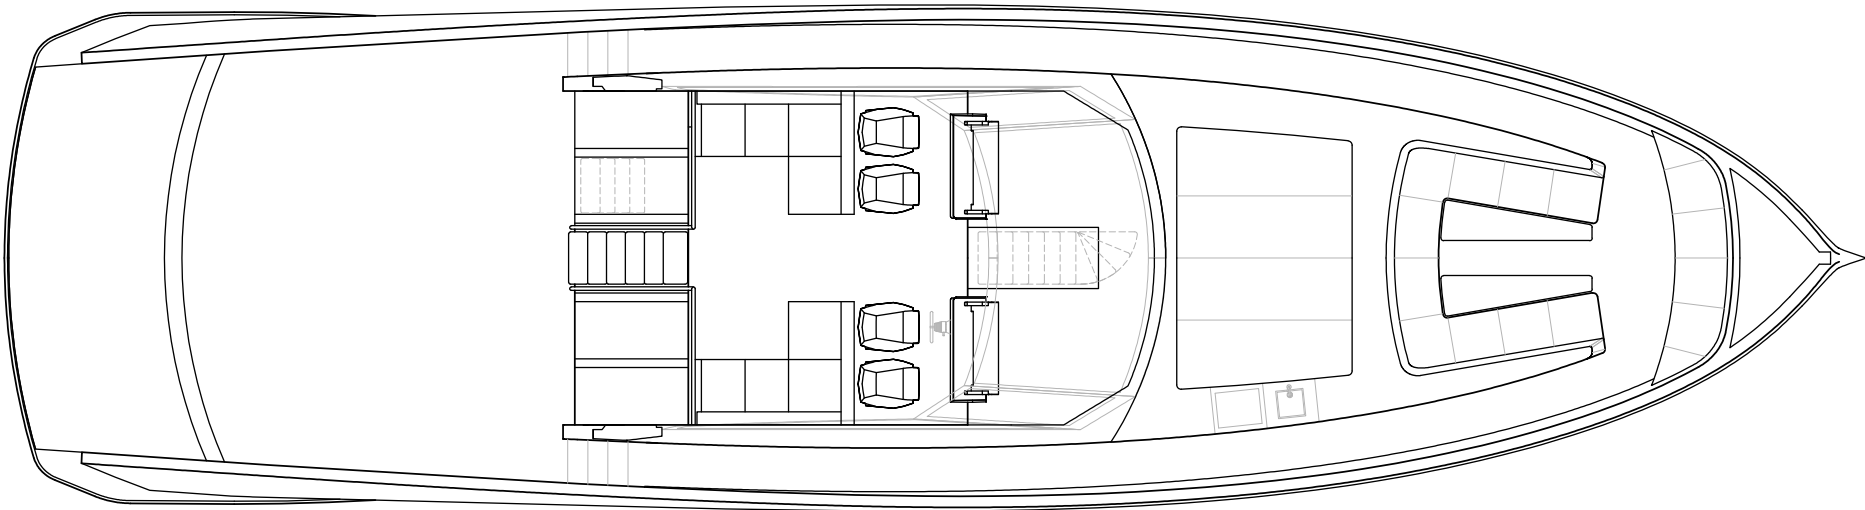

GASTRONOMIC REFINEMENT ON BOARD

STEELER YACHTS has started an alliance with Jonnie and Thérèse Boer of De Librije, the three-star Michelin restaurant in Zwolle, the Netherlands. A unique collaboration between two multiple award-winning famous names, with the purpose of offering Steeler motor yacht customers an equally special addition to their nautical lifestyle.

The collaboration will comprise the design and composition of kitchen equipment selected by Jonnie en Thérèse, along with cutlery and crockery, and the stock of spices and ingredients, naturally also including a matching selection of wines. In practice, this will translate into on-board gastronomic refinement of the customer's own yacht. From enjoyment of the very best coffee and tea blends, to being able to prepare the most fantastic Librije recipes, recommended by the culinary couple.

For ultimate zero and slow speed stability

An aerial, high-angle photograph of a luxury yacht, the Steeler Bronson 75, at night. The yacht is illuminated with warm, golden lights, highlighting its sleek, modern design. The deck is visible, featuring a bar area with stools and a large, rectangular hot tub. A man and a woman in swimwear are standing near the hot tub, embracing. The yacht's upper deck is partially visible, showing a staircase and various fixtures. The background is a dark, calm sea under a deep blue night sky. The text 'STEELER BRONSON 75 with Flextop in open position' is overlaid on the right side of the image.
